Source Protection Authority: organization whose responsibilities include providing administrative and technical support to the source protection committee and the source protection planning process. In most cases this is the conservation authority board, which is comprised of representatives appointed by municipal councils.

Source Protection Committee: it is proposed the committee will be made up of representatives from watershed stakeholders (such as municipal, agriculture, landowners, industry, environmental non-government organizations) and members of the public at large and would work together with municipalities, conservation authorities, and provincial agencies.

Background information on the Clean Water Act is available on the Ministry of the Environment website at: ontario.ca/cleanwater

Further local information on drinking water source protection can be found at: conservationontario.on.ca/source_protection/otherswregionsindex.htm

The Ontario government passed the Clean Water Act to help protect drinking water at the source, as part of an overall commitment to safeguard human health and the environment.

The legislation sets prevention as its fundamental principle. Keeping the sources of our drinking water free of contamination is smarter, safer and more effective than cleaning up problems after the fact.

A key focus of the legislation is the production of locally developed, science-based drinking water source protection assessment reports and source protection plans.

The following information provides an overview of roles and responsibilities under the Clean Water Act.
<table>

<tbody>
<tr>
<td>• Provides guidance on the development of the terms of reference</td>
<td>• Provides guidance on the development of the source protection plan for the source protection plan</td>
<td>• Yukon, Northwest Territories, and Nunavut</td>
<td>• Will provide administrative and technical support when the source protection committee is developing the terms of reference</td>
<td></td>
</tr>
<tr>
<td>• Minister approves the terms of reference</td>
<td>• Minister approves the assessment report</td>
<td>• For the Yukon and the Northwest Territories</td>
<td>• May be assigned tasks to develop the assessment report and source protection plan</td>
<td></td>
</tr>
<tr>
<td>• Minister may elevate certain systems to undergo source protection planning and amend the terms of reference</td>
<td>• Provides guidance on the development of the terms of reference for the source protection area</td>
<td>• Yukon, Northwest Territories, and Nunavut</td>
<td>• Must submit terms of reference to the Minister along with municipal, authority, and public’s comments</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Prepares the terms of reference for the source protection area</td>
<td></td>
<td>• Must submit any concerns that were not resolved to the satisfaction of First Nations to the Minister</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Must consult with municipalities and public</td>
<td></td>
<td>• Must post terms of reference on the Internet after it is approved by Minister</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Must advise First Nations on reserves that the source protection committee is starting to prepare the terms of reference</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Through negotiation and consultation, assigns tasks to municipality and source protection authority to complete components of the assessment report and source protection plan. Must have municipal council resolution from municipality agreeing to undertake the task prior to assigning the task</td>
<td>• Should participate in consultations around the terms of reference</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Must consider comments of municipalities, First Nations, public and others involved in consultations when finalizing draft proposed terms of reference</td>
<td>• When bringing in municipal elevated drinking water systems, must pass council resolution (resolution included in terms of reference)</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Must submit proposed terms of reference to the source protection authority</td>
<td>• May pass municipal council resolution (resolution included in terms of reference) if a municipal residential drinking water system will not be undergoing source protection planning because the system is being taken out of use</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Must post proposed terms of reference on the Internet</td>
<td>• When negotiating to do work around the assessment report and source protection plan, will need to provide the source protection committee with council resolution agreeing to undertake tasks</td>
<td></td>
<td></td>
</tr>
