

## News Release

September 29, 2014

### **Sections of the Cataraqi Trail to be closed temporarily for improvements**

**Kingston** – Sections of the Cataraqi Trail will be closed during the month of October for culvert replacements and trail surface improvements. The work will be spread out over five days during October and will involve four locations between Loughborough-Portland Boundary Road in Sydenham in the west and McGillivray Road near Perth Road village in the east.

The culvert replacements and trail surface improvements will be carried out on behalf of the Cataraqi Trail Management Board by the Public Works Department of South Frontenac. The public is advised to observe all barricades, signs and directions from the workers involved.

“The culvert and trail improvements being done by the Township of South Frontenac on the Cataraqi Trail demonstrates the municipal and management board partnerships that are required to maintain and to upgrade the trail to the benefit of all involved,” said Jim Hase of the Cataraqi Trail Management Board.

“The trail provides a great opportunity for active living within the local communities, municipalities and for visitors alike,” added Mr. Hase.

The Cataraqi Trail is a 104 km long multi-use trail along a former railway line that goes from Smiths Falls to Strathcona (near Napanee). Permitted uses on the Trail include hiking, cycling, horseback riding, skiing and snowmobiling with a valid permit.
